Find out what we can do

About Us

Automobile Corporation of Pakistan (AUTOCOM) has been long known for providing transport solutions for efficient supply chain to a huge list of renowned customers. AUTOCOM has pioneered the adaptation of Semi-trailers in Pakistan. We also take pride in bringing UN ADR Standards for the carriage of dangerous goods to Pakistan by building fuel tankers for various oil marketing companies. With the success of such vehicles, AUTOCOM has confidently developed expertise and ventured into various other superstructures, such as refuelers, garbage compactors and tipping trailers.

We are constantly striving to bring excellence in our products and services. We have also taken the Initiative of equipping our company with the most powerful ERP tool in order to enhance efficiency, productivity and quality at the workplace.

Today, AUTOCOM brand is built with the strength of a multi-disciplinary engineering team, a 24/7 after sales service and people with a passion to please. Our work oscillates with vivacity, speed and sturdiness, all qualities symbolized by the Rhinoceros, which becomes the best 'icon' to identify us with.

Vision

To continue to be the leader in providing transport solutions to the road freight industry in Pakistan.

Mission

We will continue to innovate and lead the specialized vehicles industry by providing safe and economical solution that benefits our stake holders. Our goal is ultimate satisfaction for all business partners ensuring complete success of the organization.

AUTOCOM Milestones

- 1968 – Automobile Corporation of Pakistan incorporated
